3. Open Response Questions:

3.1) What do you like most about the course and instructor?

- helpful
- I liked his examples, and effort to get the class to contribute.
- the content of the class
- The explanations are clear and concise. They allow plenty of time for questions, and when asked questions, they answer in a way that's easy to understand. They make themselves available outside of class times and respond to emails quickly. Materials are easy to find and they do their best to help everyone.
- The TA is very nice and the class notes were helpful!
- Zerin is a wonderful TA, probably one of the best I've had. He's very helpful during his discussions and I rarely see anyone miss it. He goes over every problem with great clarity and he answers any questions I might have very well. His notes that he posts after discussions are my go-to if I encounter a problem I'm stuck on in the homework because chances are he went over a very similar problem in the discussion. I think he's a great TA and if I could have another discussion with him, I would.

3.2) What could the instructor do to improve the course, if anything?

- be more clear and concise with their notes, come to class prepared with notes and examples to ensure the class understands the material
- N/A.
- None.
- no recommendations
- nothing :)
- There's nothing to improve, everything is perfectly great!

3.3) Other comments or suggestions.
